

# COMPACT CUT GRASS WITH DISCS

## A compact multifunction machine

This inter-row machine makes you able to do two works at the same time with two different types of blades. One is for the tiller surface of the soil with the other you can cut grass.

You can use it with all our spare parts in the front or behind the tractor.

- Double work cut grass or tillage
- Inter -row
- Hydraulic or mechanical
- Control by distributor or joystick
- Fit all our spare parts
